EDUCATION

Toronto Metropolitan University

Toronto, ON

Bachelor of Science in Computer Science • **GPA: 3.76/4.33**

Expected May 2028

- **Website Developer:** Toronto Met Game Studios, Undergraduate Science Society of TMU

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, Typescript, Go, SQL, HTML/CSS, C

Web Frameworks: React, Express.js, Node.js, Flask, Tailwind CSS

Cloud & Infrastructure Tools: Linux, Unix, Docker, AWS, Git, Bash

Databases: MySQL, PostgreSQL, MongoDB

EXPERIENCE

Expense Trend

August 2025 – October 2025

Software Engineer Intern

Remote

- Built an **MVP in 8 weeks** that automatically **translates app thumbnails** across **70+ languages** using **AI and Computer Vision**.
- Manually tested and processed **700+ images** using **LLM-based analysis (GPT-4.1)**, **Azure Vision OCR**, and **LaMa inpainting** to ensure consistent results
- Handled deployment of the MVP to **AWS EC2**, moving the pipeline from local development to the cloud.

Learning Mode AI

June 2025 – July 2025

Software Engineer Intern

Remote

- Built an **MVP** for an **AI chat assistant for YouTube Videos** used by **20+ users**
- Enhanced system to process **40%** longer video transcripts without LLM overflow errors.
- Wrote **30+ unit tests** using **Go** and **MiniRedis** achieving **85% test coverage**.

Stanford University

April 2025 – May 2025

Programming Instructor

Remote

- Instructed for Stanford's **Code in Place (CS106A)** program, taken by **20,000 students globally**
- Mentored **12+ students** in **Python** using **Tkinter** and **Karel**, maintaining **93% attendance**.

Kids Great Minds

July 2025 – August 2025

Lead Programming Instructor

Richmond Hill, ON

- Taught **100+ students** aged 8–16 in **Python**, **Java**, and **Scratch**.
- Created **20+ lesson plans** and projects to simplify core programming topics.

PROJECTS

Virtual Guitar Amp Simulator | MongoDB, Flask, React.js, Web Audio API

- Built a virtual guitar amp using the **Web Audio API** for audio processing and sound effects.
- Integrated a **Flask REST API** to save and load presets from **MongoDB**.
- Added user sign-in via **Firebase Authentication** to manage custom presets.

Composerdle | PostgreSQL, Express.js, React.js, Node.js

- Built a **full-stack web app** with a daily composer-guessing challenge
- Created a **REST API** to track user stats, calculate daily averages, and maintain global totals.
- Implemented secure user authentication using **JWT** for session-based progress tracking.
