EDUCATION

Toronto Metropolitan University (formerly Ryerson University)
BASc in Computer Science | GPA: 3.8/4.0

Toronto, ON
Sep 2024 - Expected May 2028

EXPERIENCE

Compugen

Network Automation and AI Intern - Co-op

May 2026 – Aug 2026

Richmond Hill, ON

- Incoming intern on the Networking and Security team (Summer cohort).

Expense Trend

Software Engineer - Internship

Aug 2025 – May 2026

Remote

- Built a pipeline that translates app screenshots into 70+ languages by extracting text with OCR, translating via LLMs, and reconstructing images to preserve original layout
- Achieved **90%** image translation accuracy on a 50-image test set, used to identify rendering edge cases

Learning Mode AI

Software Engineer - Internship

Jun 2025 – Aug 2025

Remote

- Fixed API failures on long YouTube videos by implementing transcript chunking and truncation, increasing supported video length from **1.5 hours to 4–5 hours**.
- Wrote **30+ unit tests** using **Go**, achieving **85% test coverage** across the main backend

Stanford University

Programming Instructor

Apr 2025 – May 2025

Remote

- Taught for Stanford's **Code in Place (CS106A)** program, taken by **20,000 students globally**
- Mentored **12+ students** in Python fundamentals, leading weekly classes and providing 1-on-1 feedback.

PROJECTS

BeaverBuddy | *Next.js, PostgreSQL, Express.js, OpenAI API*

- **Won 1st Place (\$3000)** in the Mental Health and Wellbeing track at the Build a Bridge 2026 Competition hosted by **TMU's Global Migration Institute**.
- Developed a Full-stack AI-powered mental health app for Canadian immigrants with personalized quest generation

EventFull | *Python, Scikit-learn, Next.js, Gemma AI*

- Built a 3D heatmap-based event planning app to analyze overcrowding risks at public events
- Implemented a traffic congestion predictor using **Scikit-learn** on historical traffic data.
- Used OpenAI to generate overall event scores.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, Go, SQL, HTML, CSS

Frameworks & Libraries: FastAPI, Express.js, React, Node.js, Flask, Tailwind CSS, Spring Boot

Tools: Linux, Unix, Docker, AWS, Git, Bash, MySQL, PostgreSQL, MongoDB, Redis
